

Madison Stewart

Product Designer · UX Researcher · Design Engineer

Atlanta, GA · stmadison17@gmail.com · rosie-des.github.io/portfolio · linkedin.com/in/madison-stewart-walker

SUMMARY

Product designer and UX researcher with a sociology background and an HCI Master's in progress. End-to-end product design experience across user research, prototyping, usability testing, and AI-assisted design engineering — ship live products using Claude Code, Cursor, Copilot, and Figma Make. Accessibility-first, research-grounded, and driven to put useful tools in the hands of the people who need them most.

SELECTED PROJECTS

VisiPomo — End-to-End Product Design & Design Engineering

2026

Live web app · visipomo.vercel.app · Case study on portfolio

- Designed, researched, and shipped a live productivity web app in 2 weeks using AI-assisted development (Claude Code, Cursor, GitHub Copilot, ChatGPT) and Vercel deployment
- Conducted user interviews, competitive audits, and surveys; identified an unaddressed market gap combining vision boarding, multi-mode audio, and pomodoro productivity
- Ran two rounds of moderated usability testing; resolved 6/6 findings including a feature-discoverability fix surfacing sidebar tools via a persistent FAB
- Architected a three-mode product (Deep Focus, Planning, Vision Board) that emerged from testing — driving 100% participant preference over existing tools

FAMILY — Family Scheduling App for Parents, Children & Accessibility Users

2025

UX Research, Branding, UI Design · Figma Prototype: 5 flows, 42 screens

- Led 6 semi-structured user interviews and a 34-respondent survey to define a 3-archetype problem: dual-income parents, children, and users with motor/cognitive accessibility needs
- Designed a three-mode architecture (Parent, Kids, Accessibility) sharing one data layer; iterated through low-, mid-, and high-fidelity stages in Figma
- Lifted task-completion rate from 67% to 88% across two usability-testing rounds; achieved 78 SUS score and WCAG 2.1 AA contrast compliance across all screens

EXPERIENCE

Digital Media & Communications Intern, *Greening Youth Foundation* (Remote)

Jun – Aug 2023

- Grew Instagram engagement 500% (1.2K → 7.4K monthly impressions) in 10 weeks via call-to-action content design and conversion-focused visual systems
- Established a visual design system (color, type, layout) for the foundation's Instagram used across all subsequent campaigns
- Designed a 44-page end-of-program publication summarizing 30+ intern projects; distributed to 100+ stakeholders at the annual conference

Resource Education Intern, *National Park Service* — Gulf Islands National Seashore, FL

Jun – Aug 2022

- Delivered public-facing education to ~140 weekly visitors at a federal site; applied interpretive design and research methods to a non-expert audience
- Onboarded 10–15 new interns and reduced ramp-up time from 3 weeks to 1 week through reusable training materials

EDUCATION

M.A., Human-Computer Interaction, *Iowa State University* (Online)

Expected Dec 2026

B.A., Sociology and Anthropology, *Spelman College*

Aug 2019 – May 2023

Relevant Coursework: Qualitative & Quantitative Research Methods

SKILLS

Product Design: Figma, FigJam, Wireframing, Prototyping, Design Systems, Information Architecture, Interaction Design, Design Thinking, Visual Design

UX Research: User Interviews, Usability Testing, Ethnographic Research, Surveys, Competitive Analysis, Personas, Journey Mapping, SUS, Research Synthesis

Accessibility: WCAG 2.1 AA, Inclusive Design, Screen Reader Support, ARIA, Color Contrast, Motor & Cognitive Accessibility

AI-Assisted Design & Dev: Claude Code, Cursor, GitHub Copilot, ChatGPT, Claude, Perplexity, Figma Make, Claude Design — for research synthesis, competitive analysis, prototyping, and shipping live products

Design Engineering: HTML, CSS, Vercel, GitHub, Responsive Web Design

Certifications: Google UX Design Certificate (2025) · IRB-Certified Research, Spelman College (2023)
